

## Geography Knowledge Organiser

### Rivers and the Water Cycle

#### Key Objectives

- To describe the water cycle.
- To use atlases to locate and name rivers in the UK and around the world.
- To describe the journey of the River Thames from source to mouth.
- To describe erosion, transportation and deposition.
- To explain how mountains are linked to river and to use atlases to locate and name mountain ranges.
- To use my knowledge of rivers to create my own labelled model.
