

Term 1 - DT

Making puppets

Key Words:

Word	Definition
Puppet	A toy or model of a person or animal that you can move to tell a story or put on a show.
Properties	Words to describe what a material is like.
Fabric	A material used to make clothes, blankets, curtains and PUPPETS!
Stitches	A loop of thread made in fabric using a needle.
Sketch	A quick drawing based on what you can see.
Design	A plan of how a product will look or work.
Feedback	Comments or suggestions on how to improve a product.
Success Criteria	A list which helps to see if the object does what it is expected to do.

Learning Objectives:

- To look at different types of puppets and how they have been made.
- To test different materials for our puppets.
- To investigate way to join our materials together - using a running stitch.
- To create a design for our own puppets.
- To create a puppet based on our design.
- To present and evaluate our products.

Sticky Knowledge:
